

**SIGA**

Natural Slate

**Setting** the  
benchmark in  
*Natural Slate*  
for **Roofing**

QUALITY, CONSISTENCY, TRACEABILITY AND CONTINUITY

Arresting.  
Desirable.  
*Impressive.*  
Inspiring.

**Just a few of the many words to describe the beauty of a professionally laid slate roof.**

The real attraction of a slate roof is its strength, fire resistance, energy efficiency and durability. Natural Slate can last a lifetime – often with little or no maintenance.

Natural Slate is one of the cleanest and most environmentally friendly materials available and has the lowest carbon footprint of any pitched roof covering.

Since our inception in 2005, SIGA Slate has sought to bring simplicity to the market through the clarity, consistency and efficiency of our products and services. We have been able to build long-lasting relationships with our customers thanks to the transparency we offer through test certificates for contractors and architects.

**SIGA Slate carefully manages every single step of the journey, from the quarry to the roof. This monitoring and careful selection ensures that your slate roof is not only aesthetically beautiful and strong, but that you also have consistency and traceability that's second to none.**

SIGA Slate stands for quality. The way we ensure Natural Slate quality is through an in-depth knowledge of our quarries. We have built especially close partnerships with our quarries in Spain, where our onsite, full-time quality control teams are all working together to make sure your slate is the best it can be.

By choosing SIGA, you're choosing to work with people who have immense pride in, and in-depth knowledge of Natural Slate for roofing.

*Quality* &  
Consistency

Our attention to detail has set SIGA apart from the very beginning. Over ten years of experience means we are now the benchmark for:

- Consistency of quality
- Longevity of supply
- Best value
- Choice and variety
- Traceability
- On site quality control
- Rapid and efficient logistics

With SIGA, you can be safe in the knowledge that the slate you select is the genuine article, and that we will be here every step of the way to make your project go as smoothly as possible.

**Excellence** Range

The finest selections from the best quarries

**Specification** Range

A broad range of high quality first selection slates

**Commercial** Range

Trusted quality and workable slates suited to the experienced installer

**Classic** Range

Affordable slates of good overall quality

**Customer satisfaction is at the very heart of what SIGA stands for. We ensure all our customers are clearly guided throughout the whole process, and our mission – to always exceed industry standards – gives our customers complete peace of mind.**

As the largest supplier of Natural Slate in the world, we have built an enviable reputation for quality and consistency.

Experienced specialists select all our slates, as well as the quarries that produce them. High quality slates with full traceability come as standard. Warranties range between 30-75 years\* and are fully backed by SIG, a FTSE250 organisation.

- All SIGA slates are tested to BS EN12326-1:2014 and test results are readily available
- All SIGA slates are CE Marked
- Every crate of SIGA slate is marked with EN test results

The SIGA range includes a wide variety of T1S1W1 (≤0.6%) slates to suit NHBC requirements.
